

MAGOON FELL 35 FEET, STRIKING ON LUMBER PILE

Was Walking on Unfinished Bridge When Accident Occurred, Says Message

That the death of Attorney John Alfred Magoon in Baltimore, Maryland, on Wednesday resulted from an accidental fall from a bridge he was inspecting is told in a cablegram received by local members of the family late yesterday from Mrs. Orville Tyler, who was traveling in the East with her father's party. The cablegram says that Attorney Magoon fell 35 feet from an unfinished bridge, striking on a pile of lumber.

Whether the widow or Mrs. Tyler were with Attorney Magoon at the time of the accident, the message does not say. As a result of the fall, Magoon suffered several broken ribs and a broken arm. These injuries, coupled with shock, caused his death at 9 o'clock Wednesday evening. The message does not say at what time the accident occurred.

Immediately following the accident, says the cablegram, Attorney Magoon was attended by several Baltimore physicians and surgeons, but their efforts to save his life were without avail. Mrs. Tyler and the widow will leave shortly for Honolulu with the remains.

Out of respect to Attorney Magoon the three divisions of circuit court closed yesterday. The local theaters and those on the other islands controlled by the Consolidated Amusement Company, of which Magoon was president, were dark last night.

Woman Needs All Her Strength

Keeping house is hard enough when well. The woman who has a bad back, blue, nervous spells, dizziness or bladder troubles, has a hard lot, for the family cares and tasks never let up. Probably it's all the result of kidney trouble and not the much feared "woman's weakness." Strengthen the kidneys with Doan's Backache Kidney Pills, used and recommended by women the world over. They are just as harmless as they are effective and may be used for children with weak kidneys, too.

"When Your Back is Lame—Remember the Name." DOAN'S BACKACHE KIDNEY PILLS. Sold by all druggists at 50c a box (six boxes \$2.50), or mailed on receipt of price by the Hollister Drug Co., Inc., Boston, Mass., and Co., agents for the Hawaiian Islands.

GERMAN TROOPS COUNTER EVERY ALLIED ATTACK

German counter-attacks are stopping most of the enemy gains both on east and west fronts, say the official German cablegrams for the past two days.

A feature of today's news is the mention of fighting between the Allies and the Bulgarians. Some weeks ago an Allied offensive from Saloniki and the northern camps was predicted.

The cablegrams say: "GERMAN HEADQUARTERS, July 27.—Between Ancre and Somme, up to the night hours, strong artillery duels took place. Enemy hand grenades attack west of Pozieres were repulsed. A French attack northeast of Barleux, failed. In the districts of Froideferre and Fleury, several strong French attacks were repulsed. In one place the combat is still going on.

"Strong British reconnoitering detachments southwest of Warrington and patrols near Richebourg were repulsed. French attacks in Coupesmes, north Viennes and Chateau, failed. German patrols near Ville au Bois and Arom captured French positions northwest of Prunay, brought in 50 prisoners.

"A French biplane was shot down in an air-combat near Belme, east of Rheims.

"East front. Russians attacked without success our positions on Shushara, northwest of Lyachytsky. Likewise, west of Boretschko, the Russians were bloodily repulsed. Advance posts engagement on the Kaminka, south of Vidsy, resulted in heavy enemy losses. Besides these, there were no incidents of importance."

Today's Report

"GERMAN HEADQUARTERS, July 28.—Western war theater: A German patrol in the district of Neuvechappelle advanced and brought in two machine guns together with 30 prisoners, among whom were three officers.

"North of Somme, the English increased their fire to its highest strength. During the afternoon followed strong attacks which broke down near Poelers, several times in the Foreux forest and southeast of it, before German positions. In Longueval and Delville forests there is hand to hand fighting, but no enemy successes.

"South of Somme, artillery duels continue on both sides, very active. Otherwise, the only advances of hostile hand grenade troops are near boyecourt, later repulsed. East of Meuse, French enterprises against works in Thiaumont failed.

"Eastern war theater. Hindenburg's army front: The situation is generally unchanged. Russians renewed attacks against Prince Leopold's Bavarian army group. They attacked six times in vain since yesterday afternoon on the fronts of Skrobowa, Nykola and east Gerdolnitshe with two army corps. Further attacks are going on. Attacking waves of two divisions ebbed back several times before our Shushara positions northwest of Lyachytsky. Enemy's losses were the heaviest.

"Linsingen's army: Russian attacks northeast of Stralitsky first gained terrain. Counterattacks are going on. The Austro-Hungarian army near Postomyty repulsed Russians from advanced positions.

"Balkan sector: Northwest and north of Voden, minor engagements took place in the foreground of Bulgarian positions. Enemy's losses are considerable."

ANGLO-RUSSIAN NAVAL BASE UNDER AIR-FIRE

The following official German cablegram was received today:

"A German naval airship on July 25 attacked the main base of Russian and English submarines in Marielhamm. They bombed the port with 700-kilogram explosive bombs successfully. The airship, in spite of shelling, returned unharmed to its port."

POLICE BEGIN ROUND-UP OF UNDESIRABLES

The summer round-up in Iwilei in full swing and anyone who does not want to fall into the hands of Capt. Arthur McDuffie's detective-cowboys had better hike to the hills and hibernate until the big circle is finished.

In the jail several mavericks have already been corralled and their names on the big blotter branded with the accusing question marks which may mean anything but usually infer vagrancy.

The captain of the round-up said today that the Iwilei range in the vicinity of the pineapple canneries is infested now by a number of "sicks," the same being western for unbranded ones, who are fattening fast in the long grasses of the laborers' pocket-books.

There are coyotes, too, says the head puncher, that spring out from behind the white-washed fences with loaded dice and slippery cards to eat up the gullible calves that issue forth with empty heads and full pockets.

Several of these coyotes and "sicks" are now on the police blotter, soon they will be herded before the big stockman, Monsarrat, who may throw the catch into winter pasture at the city and county jail or brand them with a suspended sentence and order them on to less-trodden ranges.

LICENSE TAXES COME IN FAST AFTER SUMMERS

Wednesday about 20 license fees were collected by the city treasurer. Thursday he collected about 150. Wednesday 21 merchants who had not paid their fees were served with penal summonses. That was why so many paid Thursday. D. L. Conkling believes. He has a list of about 200 barbers, automobile drivers and others who have not yet obtained their licenses for this year and as soon as the stream in front of his window thins out intends to swear to penal summonses for those who are still on the list, he says. The list was made yesterday and the summonses were to be sworn to last night, but applications for licenses came to him so thick and fast, by mail and telephone and in person, that he postponed action.

"The supervisors and others interested have been complaining because I have not been collecting license fees as fast as they thought I ought to," he said this morning. "Men from my office have been calling on the merchants who had not paid up all during the month and still I was not able to get the fees in. I took the only way left to me to enforce the law. I called on the police to collect a few fees, and they did it so well that all of those who have not paid up have been falling over each other to get into my office. I don't imagine I will have to swear to any more summonses either this month or in January, thanks to the publicity the Star-Bulletin gave to my first efforts to collect by force."

Acting City and County Attorney W. T. Carden announced in Judge Monsarrat's court this morning that 20 businessmen, whose names were on today's calendar for non-payment of licenses, had remitted. The cases were dismissed.

THEY REFUSE TO EAT

At periods in most children's lives they fail to relish their meals and refuse to eat even the delicacies prepared to tempt their appetites. They lack ambition, and growth seems impeded, which causes anxiety and worry.

To compel them to eat is a grave mistake, because nutrition is impaired. Healthful exercise in fresh air and sunshine is important, but equally important is a spoonful of Scott's Emulsion three times a day to feed the tissues and furnish food-energy to improve their blood, aid nutrition and sharpen their appetites.

The highly concentrated medicinal food in Scott's Emulsion supplies the very elements children need to build up their strength. They relish Scott's—it is free from alcohol.
